## DETAILED ACTION

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/11/2007 has been entered.

### ***Response to Arguments***

Applicant's arguments filed 6/11/2007 have been fully considered but they are not persuasive.

Applicant argues that the specification teaches the concurrent display (on the second display of the computing device) of any portion of an EPG on the receiving system's video display. Applicant specifically directs the examiner's attention to Paragraph 0008, which states that the EPG may be displayed on a display screen coupled to a computing device and additionally, the user may still display the EPG on the primary display if they so wish, however, Paragraph 0008 makes no such state as the display of the EPG on both devices concurrently. The Applicant states, "The ability of the user to still display the EPG on the primary display if they so wish specifies that the EPG on the computing device and on the video display **may be concurrently displayed**". The examiner notes that the mere teaching of two video displays would

Art Unit: 2623

provide the ability for the EPG to **may be** concurrently displayed, however, in order to claim such a feature, the specification must explicitly teach the concurrent display of an EPG on both devices.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1, 3-9, 11-17 and 19-24 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicant has amended the claims to state, "the computing device configured to enable a user to concurrently display any portion of the EPG on the video display".

The examiner notes that although Paragraph 0033 of the instant application states, "***A user of the EPG displayed on computing device 105 may also, through input device 160, display portions of or the entire EPG on video display 105***", this portion of the specification fails to specifically state that EPG is displayed concurrently on the computing device and the video display. Further note the arguments above for Paragraph 0008 further failing to teach the concurrent display limitations.

***Conclusion***

All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
